

## **2025 MALRI ORMAT STEAMBOAT TOUR**

**Date & Time of tour:** April 22, 2025 @ 1:00pm (Expected 1-2 Hours)

**Organized By:** Nevada Landmen's Association

**Meeting Location:** 1010 Power Plant Drive, Reno, NV

- There is a gate located at the end of the gravel road. Please buzz in and let them know you are there for a tour. Parking is located on the right just beyond the gate.
- Anyone planning on attending the tour should carpool to the Steamboat facility. Ormat will lead the caravan of personal vehicles through the facility and stop at various locations.

**Attendee Waiver:** All attendees must review, complete required fields, and sign the Geothermal Power Plant Tour Waiver. Please have waiver completed prior to arrival. Attendees will turn waivers in the day of the tour.

**Dress Code:** All tour attendees must wear long sleeve shirts, pants, and closed-toe shoes. Hard hats and safety glasses will be provided.

In general, the Steamboat Tour includes:

1. Looking at geothermal injection and production wells.
2. Visiting the control room inside Ormat's Galena 3 power plant (which remotely controls most of our Western Nevada power plants).
3. Stopping at Ormat's newest Steamboat power plant, Steamboat Hills Repower, where Ormat will explain their binary loop system.
4. The tour may also include stopping at Sinter Terrace to discuss the local geology.
